dragpatch®

CushionCore™
Comfort Liner

EXCLUSIVE DRAGPATCH® provides side reinforcement for abrasion resistance and insulation

SEAMLESS INDEX FINGER provides good hand control

KEVLAR® STITCHING provides greater protection against sparks, with better abrasion resistance

EXTRA-PREMIUM GRAIN KIDSKIN offers superior dexterity and finger control

Targeted Applications & Industries

Thinner kidskin leather offers exceptional finger control, while still providing durability and abrasion resistance, making this glove a premium choice for all TIG welding applications

Kidskin Leather is a well-rounded leather, with its adaptability, durability, suppleness, and lightweight, making it ideal for TIG Gloves.

Our exclusive DragPatch® side reinforcement provides extra comfort and insulation while your hand is resting or sliding across a welding surface.
