3M™ Speedglas™ 9100 FX Welding Helmet

 **Speedglas™**

Let Your Vision Define Your Potential

The new 9100 FX combines legendary Speedglas quality and auto darkening technology with an innovative wide-view grinding visor to give welders an all-in-one solution for more flexibility, precision, and efficiency.

The exceptionally clear, wide grinding visor offers a greater field of view in all directions, while a smooth flip-up pivot mechanism assures effortless transition from welding to grinding modes.

New front air exhaust vents help reduce fogging, and highly adjustable suspension and well-balanced design enhance the well-known Speedglas top performance and comfort qualities.

Call your local 3M dealer for a hands-on demonstration!

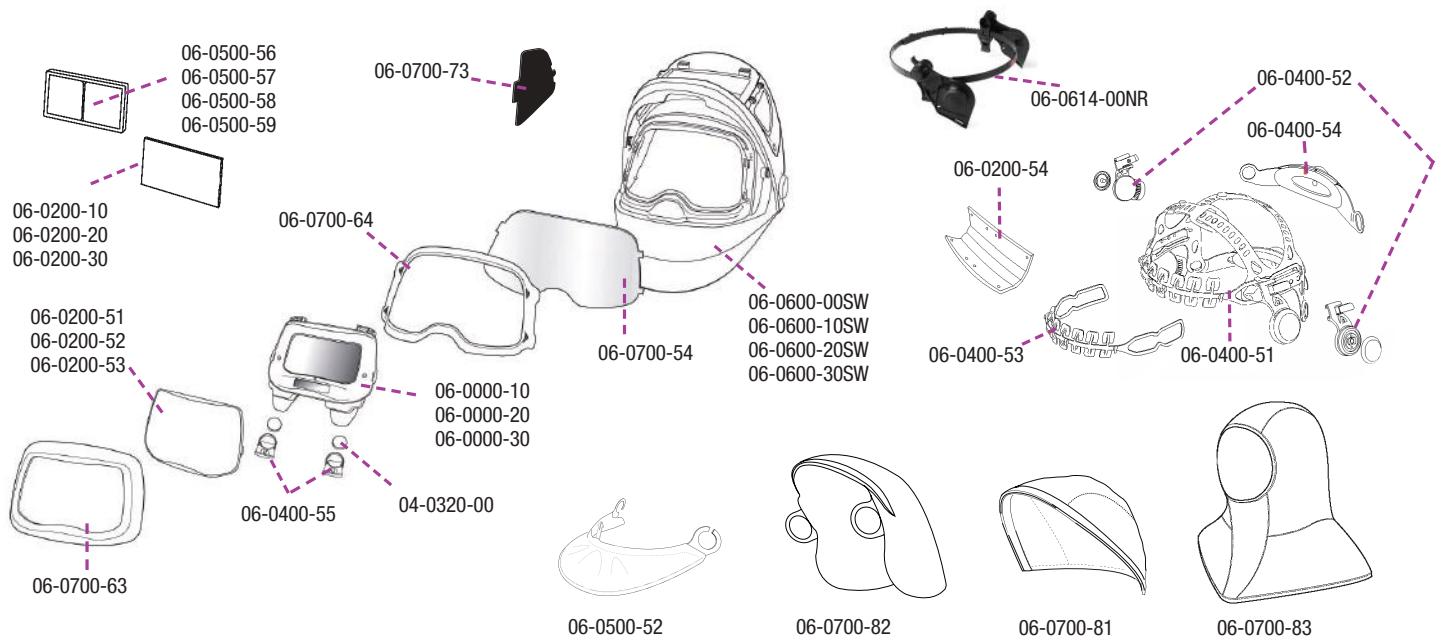

3M

3M™ Speedglas™ 9100 FX Welding Helmet

A long-awaited solution for professional welders

- Exceptionally large, 8" x 4.25" protective visor with 105 degree viewing angle significantly increases user's field of view in all directions.
- Smooth flip-up pivot mechanism allows for effortless one-handed use and quick transition between welding and grinding modes.
- Compatible with all 3M™ Speedglas™ 9100 Auto Darkening Filters (Shade 5, 8, 9-13, and tack mode).
- Includes SideWindows with exclusive Shade 5 filters allow you to see others working around you.
- Meets the mechanical strength requirements of EN 175 level "B" and ANSI Z87.1 – 2010.
- Includes spark deflector, and optional flame-resistant extended ear and neck protection accessory for added protection from welding hazards.
- Front and side air exhaust vents minimize fogging and enhance comfort, particularly during extended use
- Compatible with most 3M disposable respirators and select 3M reusable respirators.
