FLEXTEC® 335XS

COMPACT CROSSLINC® AND ARCLINK® POWER SOURCE

Shown:

Flextec 335XS (Tweco) K4850-1

PRECISION AND DURABILITY FOR ANY JOB

Built on the field-proven Flextec® platform, the Flextec® 335XS is purpose-designed to deliver reliable, multi-process performance in the toughest environments. Specifically engineered to work seamlessly with CrossLinc® accessories and ArcLink® wire feeders, the Flextec 335XS enhances power source durability, simplifies setup, and improves overall jobsite reliability.

Key Features & Benefits:

- · Compact & Portable Weighs just 50 lbs for easy transport and maneuverability.
- Rugged Design No-front-controls layout reduces failure points and withstands harsh conditions.
- Process Select Assist (PSA) Automatically selects the correct weld process based on the connected CrossLinc accessory.
- Synergic Pulse Capabilities Enabled through ArcLink-compatible feeders for advanced welding control.
- · Versatile Applications Ideal for shipbuilding, repair, and field welding.
- Industry-Leading Warranty Backed by a 5-year warranty with no out-of-pocket costs for parts or labor.

Power Feed® 84

KEY CONTROLS

- 1. Output/Thermal LED Indicator
- 2. Negative Electrode Connection
- 3. 5-Pin Arclink Feeder Connection
- 4. Positive Electrode Connection
- 5. Crosslinc LED Indicator

- 6. On/Off Switch
- 7. Input Power Cord
- 8. USB Connector
- 9. Lift Strap Attachment Point

For best welding results with Lincoln Electric® equipment, always use Lincoln Electric consumables. Visit www.lincolnelectric.com for more details.

CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, cutting equipment and EV charging systems. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information or manual provises or implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
