IMPROVED! AccuLock™

Now with **NEW! MDX™-250 MIG gun with AccuLock™ MDX consumable system** featuring a dual-locked, front-loading liner that optimizes wire feedability.

Lightweight MIG, stick and TIG welder weighs only 29 pounds (13.2 kg) so it can go anywhere you need to weld.

Auto-Set™ Elite can be used on multiple materials and multiple processes with the ability to fine-tune your settings. Easy to set up and use.

Impact-resistant case provides strength and durability, protecting the internal components and welding wire.

Excellent arc characteristics! Multimatic 200 offers positive arc starts and an extremely stable arc with minimal spatter on both mixed gases and straight CO₂.

Multi-voltage plug (MVP™)

allows connection to common 120- and 230-volt power receptacles without the use of any tools—choose the plug that fits the receptacle and connect it to the power cord.

Optional spool guns. Spoolmate™ 100 or 150 offer reliable and economical solutions for welding aluminum.

Optional TIG contractor kit gives you everything you need for remote TIG welding with the Multimatic 200.
