**ClearLight™ Lens Technology** optimizes contrast and clarity in welding and light states. 1/1/1/2 optical clarity rating allows for a lighter light state while not welding — keeping the helmet down — maximizing safety and productivity.

**Three arc sensors and three modes:** weld, cut and grind.

**Gen 3.5 headgear with comfort cushion** has an ergonomic design that provides extensive adjustability, settings, and enhanced support.

**Digital controls** easily allow welder to adjust shade, delay and sensitivity.

**Auto-on/off** power control triggers lens at the strike of an arc.

**Meets ANSI Z87.1+, CSA and CE standards.**

**Optional helmet lighting accessory kit** includes two lights (one for each side) and all required mounting hardware.

Auto-darkening lens is warranted for three years.
