UNLEASH A NEW WORLD OF WELDING
AND CUTTING PERFORMANCE.**

EXCEPTIONAL COMFORT.

The Savage A40 PAPR's lightweight helmet shell comes with multi-point adjustable headgear to provide exceptional comfort while protecting from heat, sparks and spatter - no matter the application.

CRAZY OPTICAL PERFORMANCE.

We equipped Savage A40 PAPR system with a 3.93 x 1.96 in. (10 x 5 cm) viewing area for a wider field of vision and greater spatial awareness. Its 1/1/1/2 optical-class lens features our ultra-clear true-color technology for increased weld pool clarity and enhanced definition. The result? A bigger, better view.

**ULTRA-CLEAR
TECH**

REMARKABLE TECHNOLOGY.

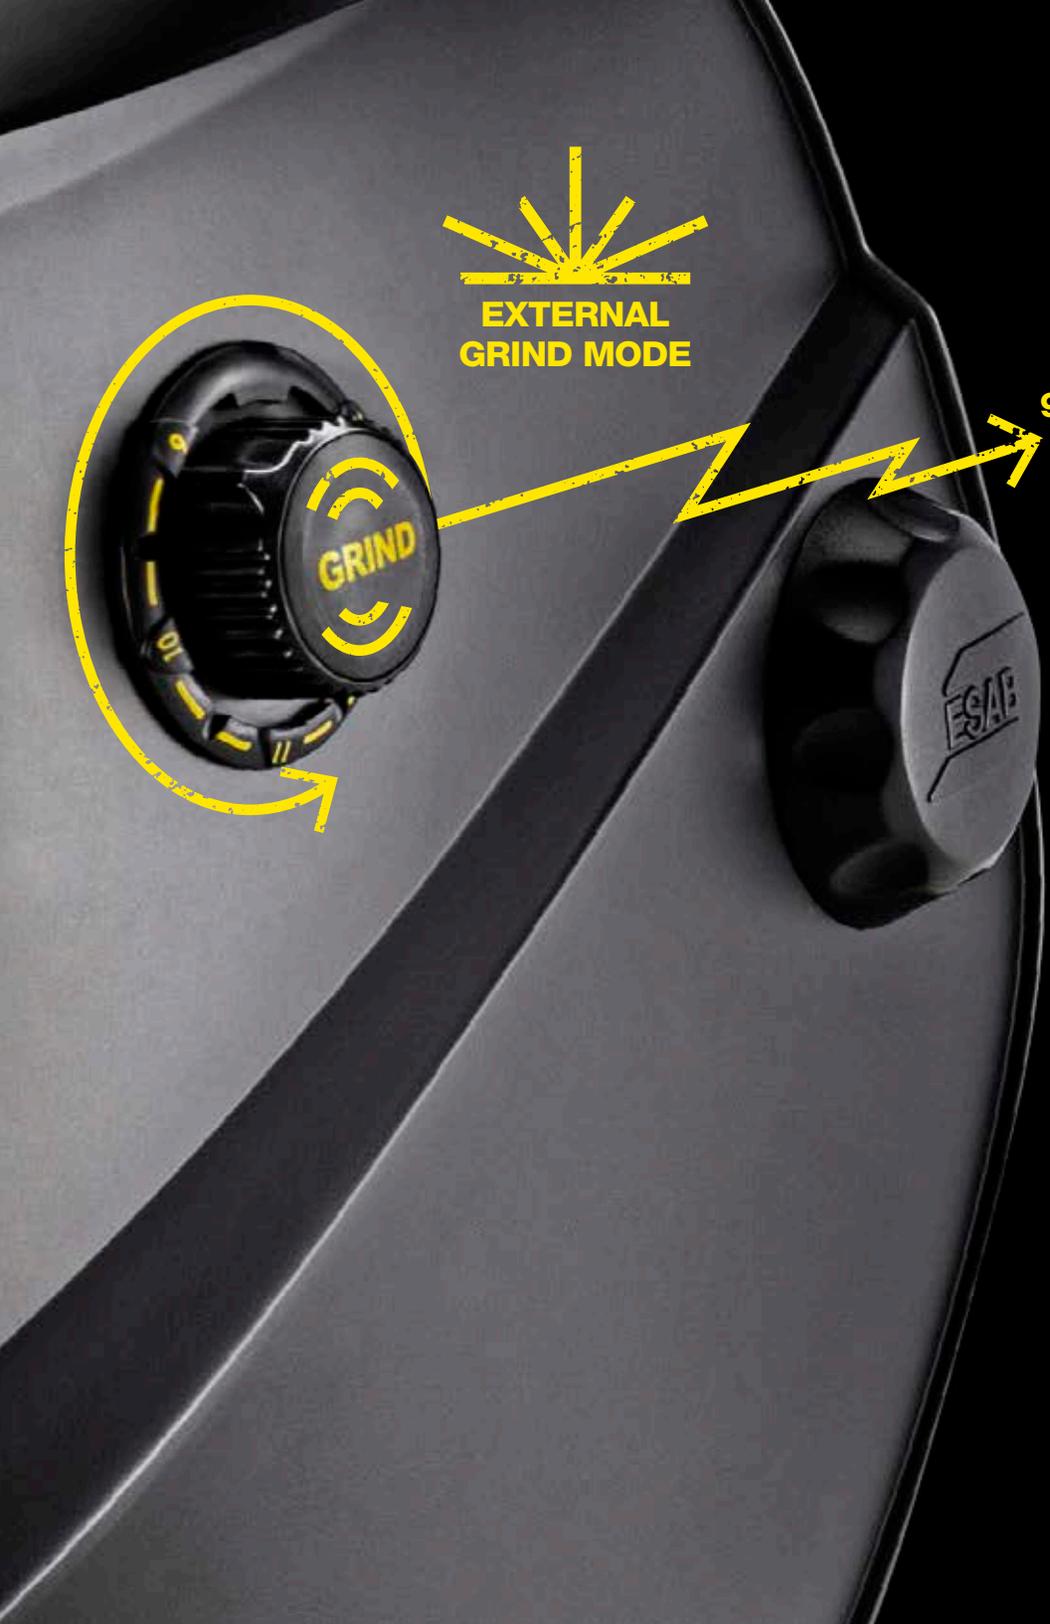

With Savage A40 PAPR system, the sensitivity and delay controls inside the helmet allow for seamless setting adjustments. And Savage A40's four light sensors provide a faster auto-darkening response, especially when working out of position.

WILD EXTERNAL FEATURES.

Just like Sentinel, Savage A40 PAPER system comes with an externally activated grind mode button for superior convenience. And its DIN 9-13 adjustment knob makes it easy to change shades, even while wearing a heavy glove.

EXTRAORDINARY BREATHABILITY.

The advanced PAPR system uses a push-button, digitally-controlled 3-setting airflow adjustment, allowing from 170 liters per minute to 230 liters per minute through a spark arrestor shield and 2-stage replaceable filter. A high-capacity rechargeable lithium-ion battery powers the quiet (70 db) blower system for up to 8 hours between charging.
