**Processes (X-ray Quality)**
- Stick (SMAW)
- MIG (GMAW)
- Flux-cored (FCAW)
- RMD**
- Pulsed MIG (GMAW-P)*
- DC TIG (GTAW)
- Air carbon arc (CAC-A) cutting and gouging
  - Rated: 3/16-inch carbons,
  - Capable: 1/4-inch carbons
- Air plasma cutting and gouging with optional Spectrum® models
  - Rated: 5/8-inch mild steel

**Output Range**
- DC stick: 30–325 A
- MIG/flux-cored: 10–35 V
- DC TIG: 10–325 A

**Generator Power Output Rated at 104°F (40°C)**
- 12,000 watts peak, 10,500 watts continuous

**Electronic Fuel Injection (EFI) (option)**
- Uses up to 42 percent less fuel

**Excel™ Power (EFI only option)**
- 2,400 watts (120 V, 20 A) 60 Hz pure sine power at all speeds

**Battery Charge/Crank Assist (EFI gas only option)**
- Battery charge: 12/24 V, 75 A
- Crank assist: 12/24 V, 350 A

*Available only on ArcReach models.

**Trailblazer® Technologies**

**Unbeatable arc performance**

Wide amperage output with better welding deposition rates means you can get jobs done faster, saving time and money. The Trailblazer also has precise arc control, which allows you to fine-tune the arc to match your personal preferences and quickly dial in the perfect parameters to optimize weld quality and maximize productivity across a variety of applications and welding processes.

**Auto-Speed® technology**

Matches engine speed to load — a Miller exclusive. Get the welding power you need — plus reduced fuel consumption and lower noise levels for a more-profitable, safer jobsite.

Unlike competitive machines that operate at 3,600 rpm (max) under any load, Miller-exclusive Auto-Speed technology responds to weld requirements by automatically adjusting engine speed to one of four rpm levels so the engine never works harder than necessary.

Refueling time and operating costs are reduced, which means more productivity and profitability. Plus everyone on the jobsite gets a better working environment because noise levels and exhaust emissions are lowered.

**Electronic fuel injection (EFI) (option)**

Improve fuel efficiency for maximum productivity and profitability. Adding EFI to your Trailblazer welder/generator adds multiple benefits. With EFI, you’ll get faster, more-reliable starts in any weather — no choke adjustments needed. EFI-equipped Trailblazer machines are also up to 42 percent more fuel efficient than standard carbureted models, improving profitability. Plus, refueling less frequently means you’ll spend more of your time welding, improving productivity.

Add Excel power to your Trailblazer with EFI, and you’ll have the most fuel-efficient compact welder/generator available.

**Excel™ power (option)**

Power at idle — a Miller exclusive. Unlike competitive machines that provide auxiliary power only at 3,600 rpm (max), Excel power delivers a full 2,400 watts (20 A) of 120-volt inverter-based, pure sine wave power at all speeds, including idle. With Excel power you can operate jobsite tools like grinders at quiet, fuel-saving speeds.

Refueling time and operating costs are reduced with Excel power, which means more productivity and profitability. Plus everyone on the jobsite gets a better working environment because noise levels and exhaust emissions are lowered. Excel power — available only from Miller.

**ArcReach® remote control technology (option)**

Remote control of the power source without a control cord. An ArcReach system allows you to change weld settings from your ArcReach feeder or remote, saving a trip to the power supply. ArcReach technology uses the existing weld cable to communicate welding control information between the feeder or remote and the power source. This technology eliminates the need for control cords, and their associated problems and costs.

**Battery charge/crank assist (option)**

Reduce downtime with battery charge/crank assist capability. Designed and recommended for mechanics or anyone else responsible for a fleet of trucks or equipment. By using your Trailblazer to charge dead batteries or jump a stubborn engine, you’ll keep your crew working and the fleet up and running.

*Note: Battery charge/jump cables (300422) must be ordered separately.*
Safer, more productive jobsites

Quieter jobsites are safer and more productive because work crews can communicate easier, and work can start earlier and end later — even in noise-sensitive areas. If your jobsite needs a welder/generator, it needs a Trailblazer welder/generator — because no other gas-fueled choice is as quiet.

Optional ArcReach® remote control technology eliminates the need to trace or move heavy secondary weld leads bundled with control cords on the jobsite. Complete remote control of welding processes and parameters improves safety by limiting jobsite movement and reducing slip, trip and fall hazards.

More portable, uses less truck and jobsite space

Trailblazer welder/generators are up to 17 percent smaller and 10 percent lighter than competitive machines — which means moving them is faster and easier, for maximum productivity. And because they take up less space, Trailblazer welder/generators let work trucks carry more equipment and gear — so your work crews can be ready for anything.

Cleaner and stronger generator power

Combined with a 25-horsepower engine, Trailblazer welder/generators offer 12,000 watts of clean, truly usable generator power that is Accu-Rated™, not inflated; tested to deliver uninterrupted peak output for a minimum of 30 seconds for big loads, so you can get more jobs done.

An independent welder and generator power system ensures no interaction between jobsite tools and the welding arc, while advanced generator technology virtually eliminates power spikes and other electrical imperfections — so welds are cleaner and jobsite tools can run without interruption, maximizing quality, productivity and profit.

Runs cooler while operating

Exclusive engine and generator packaging design operates cooler and more efficiently. The engine is rotated towards the front to create more efficient airflow. More efficient airflow and exclusive engine location are significant contributors to reduced sound level and size reduction. Hot air recirculation is eliminated when machine is mounted in tight spots, and internal parts are kept cool for optimal performance.
Specifications (Subject to change without notice.)

Welding Mode | Process | Amp/Volt Ranges | Rated Weld Output at 104°F (40°C)* | Single-Phase Generator Power | Sound Levels at 7 m (23 ft.) | Dimensions | Net Weight**
--- | --- | --- | --- | --- | --- | --- | ---
CC/DC | Stick/TIG | 10–325 A | 325 A at 28 V, 100% duty cycle | Peak 12,000 watts 11,800 watts with LP | Weld 150 A load: 65 dB (90 Lwa), 325 A load: 73.5 dB (98.5 Lwa) | H: 28 in. (711 mm) | 325 gas model 460 lb. (209 kg)

For truck installation information, visit MillerWelds.com/truck
1. Self-calibrating digital meters with SunVision™
   - Preset and actual amperage/voltage
   - Process settings
   - Maintenance functions: hour meter, oil change interval, rpm

2. Weld process selection switch

3. Pushbutton main control knob used for adjusting amperage/voltage, adjusting arc control, and accessing the service menu.

4. Adjustable arc control adjusts DIG when process control is in stick modes and adjusts inductance when process control is in FCAW or MIG modes. The amount of DIG determines how much amperage (heat) varies with stick arc length. Inductance determines the “wetness” of the weld puddle.

5. Maintenance interval reminder. Yellow and red indicator lights let an operator know when the machine is approaching, and finally in need of routine maintenance.

6. Front panel fuel gauge LEDs indicate fuel level. (Gas models only)

7. Standard 14-pin receptacle for simple connection of remote controls and wire feeders. Includes Auto Remote Sense™ which automatically switches from panel to remote amperage/voltage (A/V) control with remote connected. Eliminates confusion of a panel/remote switch.

8. USB port allows software updates from a USB drive. A summary file of recoded data from the unit will be saved to a USB drive that is inserted.

9. Engine control: Run/idle position adjusts engine to run at lower speeds depending on total power needed for welding.

10. Optional battery charge/crank assist (factory option, see page 8)
    A. Receptacle: Provides connection to battery charge/crank assist (12 or 24 volt)
    B. On/off switch: Provides simple control of the battery
    C. Voltage switch: Provides simple selection of battery voltage

11. Weld output terminals

12. Optional Excel™ power (factory option, see page 8) provides pure generator power at idle speed and while welding.
    Note: If Trailblazer is ordered without Excel power option, unit is shipped with two 20 A, 120 V duplex receptacles with circuit breakers and ground fault.

13. 50 A, 120/240 V receptacle with circuit breaker
    (For matching plug, order 119172.)
LP Gas*  
Vapor withdrawal with regulator. Does not include tanks, brackets or hose from tank to regulator.  
Note: Requires Vapor Withdrawal Hose and LP Tank Mounting Assembly 301458.

GFCI Receptacles*  300975  
Field Kit contains two GFCI 120 V duplex receptacles. (240 V GFCI receptacle not required.)

Electric Fuel Pump*  300976  
Field Recommended for gas engine operations at altitudes above 5,000 feet. Improves engine starting and high-output performance.

Spark Arrestor  300924  
Field Mandatory when operating on California grass-lands, brush or forest-covered land, and all national forests. For other areas, check your state and local laws.

Remote Oil Drain and Filter Kit  300923  
Field Front mount for Kohler. Makes servicing easy when engine drive is mounted in tight spots.

Full KVA Adapter Cord  300517  
Field NEMA 14-50P to NEMA 6-50R. Adapts engine drive 120/240 V plug to common Millermatic® and Spectrum® 240 V plug.

Full KVA Plug Kit  119172  
Field 120/240 V, 50 A plug (NEMA 14-50P) to fit full KVA receptacle.

Order the following from Miller Service Parts.

Engine Tune-Up Kits  
230015  Field. Kohler CH730 (gas)  
246115  Field. Kohler ECH730 (EFI gas)  
278028  Field. Kohler PCH740 (LP)

Includes spark plugs and engine filters.

Genuine Miller® Options  
• Available as factory option. See ordering information on back page.

Genuine Miller® Accessories

Never Flat™ Tires  
Available on Bobcat and Trailblazer running gear.  
• Eliminate costly jobsite downtime  
• Maintain constant tire pressure and will not develop flats  
• Protect against punctures  
• Preserve maneuverability, even when weighed down with heavy welding cable

Off-Road Running Gear  300909  Gas/LP, with inner tubes  
300910  Gas/LP, with Never Flat tires
includes four heavy-duty 15-inch tires and a rugged handle to provide maximum maneuverability.

Off-Road Running Gear with Protective Cage and Never Flat Tires  300912  Gas/LP
Running gear and rugged cage with cable holders protects your investment and is easy to move around the jobsite.

Multi-Terrain Running Gear  300913  Gas/LP, with inner tubes  
300914  Gas/LP, with Never Flat tires
includes two heavy-duty 15-inch tires, two 8-inch rubber swivel casters and a heavy-duty handle. Recommended for all surfaces and applications, and is easy to move around the jobsite.

Protective Cage with Cable Holders  300921  Gas/LP
Rugged cage with cable holders protects your investment. Can be used with running gear, gas cylinder mounting assembly, LP tank mounting assembly, or with trailer.

Gas Cylinder Mounting Assembly  300918  Gas
Designed for use with multi-terrain running gear, protective cage, or by itself. Includes bracket, vertical support rack and safety chain.  
Note: Not for use with LP tank mounting assembly. Not recommended for use with protective cover.

Vapor Withdrawal Hose and LP Tank Mounting Assembly  301458  LP
Designed for use with multi-terrain running gear, protective cage, or by itself. Includes bracket and clamp to mount 33- and 43-pound tanks horizontally, and hose with fittings to converter.  
Note: Not for use with gas cylinder mounting assembly. Not recommended for use with protective cover.

25-foot Battery Charge/Jump Cables with Plug  300422

Protective Covers  
300919  For gas models without protective cage or running gear (shown)  
300920  For gas models with protective cage and/or running gear
Heavy-duty, water-resistant and mildew-resistant covers protect and maintain the finish of the welder.

Gas Cylinder Mounting Assembly  301458  LP
Designed for use with multi-terrain running gear, protective cage, or by itself. Includes bracket and clamp to mount 33- and 43-pound tanks horizontally, and hose with fittings to converter.  
Note: Not for use with gas cylinder mounting assembly. Not recommended for use with protective cover.
Genuine Miller® Accessories (Continued)

MIG/Flux-cored Welding

SuitCase® X-TREME™

8VS Wire Feeder  951582
SuitCase® X-TREME™

12VS Wire Feeder  951543
Lightweight, voltage-sensing wire feeders include secondary contactor, gas valve, drive roll kit and Bernard™ BTB Gun 300 A. See literature M/6.42.

SuitCase® 12RC

Wire Feeder  951580
Lightweight and flexible enough to run wires up to .062-inch diameter. Includes remote voltage control, drive roll kit and Bernard™ BTB Gun 300 A. See literature M/6.5.

ArcReach® SuitCase® 8

951726  With Bernard™ BTB Gun 300 A
951727  With Bernard™ S-Gun™
951728  With Bernard™ Dura-Flux™ gun
ArcReach® SuitCase® 12

951729  With Bernard™ BTB Gun 300 A
951730  With Bernard™ S-Gun™
951731  With Bernard™ Dura-Flux™ gun
Portable feeder designed to run off of arc voltage. When paired with an ArcReach power source, provides remote control of the power source without a control cord — saving time and money. See literature M/6.55.

ArcReach® Smart Feeder  951733

For use with ArcReach models only. Includes drive rolls and Bernard™ PipeWorx 300-15 MIG gun. For MIG, FCAW, and advanced RMD® and pulse processes. See literature M/6.55.

Spoolmatic® 30A

Spool Gun  130831
Air-cooled, 200-amp, one-pound spool gun for aluminum MIG. See literature M/1.73. Requires WC-24 control (137549).

XR™ Wire Feeders and Guns

Push-pull system designed to handle difficult-to-feed soft alloy wires such as aluminum. See literature M/1.7 through M/1.74.

Stick (SMAW) Welding

Weld Leads

2/0 Stick Cable Set, 50 ft. (15 m)  173851
Consists of 50-foot (15 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 350 A, 100% duty cycle.

2/0 Stick Cable Set, 100/50 ft. (30.5/15 m)  043952
Consists of 100-foot (30.5 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 300 A, 100% duty cycle.

AC TIG (GTAW) Welding

Dynasty®

210 Series
For portable AC/DC TIG. See literature AD/4.81.

Remote Controls

ArcReach® Stick/TIG Remote  301325
When paired with an ArcReach power source, provides remote control of the power source without a control cord — saving time and money. See literature AY/14.5.

Wireless Remote Hand Control  300430
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range.

Plasma Cutting

Spectrum 375 X-TREME and 625 X-TREME shown.

Spectrum® 375 X-TREME™  907529
See literature PC/9.2.

Spectrum® 625 X-TREME™  907579
See literature PC/9.6.

Spectrum® 875  907583
See literature PC/9.8.

The Spectrum 375 X-TREME and 625 X-TREME come complete with protective X-CASE™ (not shown).

Remote Controls

ArcReach® Stick/TIG Remote  301325
When paired with an ArcReach power source, provides remote control of the power source without a control cord — saving time and money. See literature AY/14.5.

Wireless Remote Hand Control  300430
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range.

Trailers and Hitches

HWY-Mid Frame Trailer  301438
1,424-pound (646 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye. Note: Trailer is shipped unassembled.

Cable Tree  043826
Provides an area to conveniently wrap weld cables and extension cords.

2-In-1 Document/ Fire Extinguisher Holder  301236
Stores documents and holds a five-pound fire extinguisher. Note: Holder shown mounted on trailer. Fire extinguisher not included.
